Accounting scandals all over the world have resulted in authorities increasing regulations and oversight on professional accountants. Professional accountants, as stewards of transparency and trust, have a key role to play and need to have sound ethics to provide effective financial reporting and gain stakeholders’ confidence.

As part of the Malaysian Institute of Accountants’ continuous effort to uphold and encourage ethical behaviour, the Institute is pleased to invite you to a forum discussing challenges faced by both professional accountants in business and in public practice. This event provides members with a forum to discuss ethical dilemmas by weighing the potential impacts and outcomes.

Professional accountants with ethical behaviour will be able to reinforce ethical practices, promote an ethical culture, foster transparency and trust, enhance the credibility of financial reporting and present a sustainable organisation to stakeholders.

This complimentary event will be an interactive session with the opportunity for knowledge sharing, learning best practices, staying connected with the profession, and helping you to be more conscious and well-equipped when moving ahead in this highly competitive profession.
